

PATENT APPLICATION

Certificate Under 37 C.F.R. 1.8(a)

This correspondence is being deposited
with the United States Postal Service as
first class mail in an envelope addressed to
Assistant Commissioner of Patents
Washington, D.C. 20231 on 9/14/2000

Gr. 1631 73
#517R.
09/23/00

RECEIVED

SEP 20 2000

TECH CENTER 1500/2000

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Attorney Docket: 21416/90042

Group Art Number: 1631

Serial Number: 09/533,466

Examiner: Ogihara, N.

Inventor: Collart *et al.*

Title: USE OF CRYSTAL STRUCTURE OF
BACTERIAL IMP DEHYDROGENASE TO
DESIGN INHIBITORS OF BACTERIAL
GROWTH

File Date: March 23, 2000

INFORMATION DISCLOSURE STATEMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

This statement is filed in the application identified above pursuant to 37 C.F.R. §

1.56. No representation is intended that a complete search has been made of relevant
publications or that no more relevant publications than those listed below are available. A copy
of each reference is provided for review by the Examiner. The filing of this Statement shall not

of each reference is provided for review by the Examiner. The filing of this Statement shall not be construed to be an admission that the information cited in the Statement is, or is considered to be, material to patentability as defined in §1.56(b).

A copy of each document listed on the report has been included. None of the above-cited publications are believed to disclose or suggest the invention recited in the claims of the above-identified application or the priority date of the application is before the publication date. It is therefore believed that the claimed invention is patentably distinguishable over these publications.

Please charge any fees that might be due in connection with this Information
Disclosure Statement to our Deposit Account No. 10-0435. An extra copy of this Information
Disclosure Statement is enclosed for that purpose.
